

To Whom It May Concern,

Herewith we would like to thank Ekaterina Bulgachenko, ATOMEXPO project manager, for helping us to organize Fennovoima's participation in the ATOMEXPO Forum 2019 in Sochi. Ms Bulgachenko's professionalism, organisational skills and sense of responsibility were of great importance and value for us in the run-up and during the Forum. As always at big international conferences, it was extremely important for us to know that we can in all circumstances rely on Ms Bulgachenko and her expertise.

All arrangements for the booth set-up, registration process and logistics were conducted in a highly professional manner by Ms Bulgachenko. On site, it was also appreciated that Ms Bulgachenko dealt with unexpected organisational issues in a very efficient and result-oriented way. Consequently, Fennovoima's participation in ATOMEXPO 2019 went smoothly and successfully, same as during previous years.

We hope to continue our good cooperation in the future.

Sincerely yours,

Heli Nikula

Fennovoima Communications Manager
